Neither Party Within a Mile of an Agreement That Could Lead to a Settlement-Result of the Conference as Told in an

Pittsburg, Aug. 25.-Following is the operators' statement of the proceedings the conference yesterday between e mine workers' officials and a committee of the operators in an attempt to reach a settlement of the coal mine lke in the Pittsburg district, leaving out the preliminaries, and coming at ce to the object of the gathering: The first thing done was to waive the question of an interstate agreement. Ratch-ford then stated the terms upon which the miners would return to work, say ing that they would go to work at pe on the 69-cent rate being paid until such time as a board of arbitrators could make an award of what would be a fair wage rate, any excess paid to the miners above the award of the arbitrators to be deducted from the pay of the miners, following the award. Strike Leader May Talk Later.

The operators stated their reasons why this could not be accepted, and in lieu thereof submitted four propositions for arbitration—one that the men should eturn to work, leaving to arbitrators what rate shall be paid; one leaving question of rate open until after an award has been made; one that the arbitrators decide within ten or twenty days, the miners remaining idle, and one that the arbitrators have thirty days in which to decide, the miners remaining idle. All those were peremptorily rejected by the miners' representa-tives and the conference adjourned "The operators feel that in submitting these various propositions for a settlement by conciliation or arbitration they have exhausted effort in trying to bring about a settlement with the officials of

merly by the Miners. Ratchford was seen after the conference and said he had nothing more to add for publication at this time. He intimated that he was expecting a ngthy statement from the press committee of the operators, and if the state-ment demanded a reply it would be forthcoming. He and Secretary Pearce left last night for Columbus. Dolan said he was very sorry that no con-clusion had been reached. "Many of the operators seem to think that it would be huntilation for them to what be humiliation for them to make conoessions," he asserted. "The time to talk about humiliation has passed. I am of the opinion that if the operators had acceded to our requests, which were certainly fair, they would not have stamped themselves as cowards, but as gentlemen who are desirous of doing what is fair and just."
